Content Types & Specifications

Short-Form Video (TikTok / Instagram Reels)

Format: 30–60 seconds, hook in first 3 seconds **Series ideas:**

- *"Did You Know?"* — surprising constitutional facts (e.g., "The word 'democracy' doesn't appear in the Constitution")
- *"Your Rep in 60 Seconds"* — who represents you and what they've done lately
- *"Bill or No Bill?"* — dramatic read of real legislation, vote on whether it should pass
- *"Civics Myth Busted"* — common misconceptions corrected fast
- *"Historical Parallel"* — today's news compared to a historical civic moment

Production: Talking head + text overlay format works at zero budget. Add platform screenshots showing the feature being discussed.

Long-Form Content (Blog / Substack / LinkedIn Articles)

Cadence: 2 per month minimum **Topics:**

- "Why Gen Z Is the Most Civic-Aware Generation — And the Least Voting One"
- "What 250 Years of American Democracy Actually Looks Like in Data"
- "How AI Can Fix the Civics Education Crisis Without Making It Worse"
- "The Teacher's Guide to Making Civics Relevant Again"
- "A Nonpartisan's Guide to Understanding Your Local Government"

Weekly Newsletter: *The Civic Brief*

Send day: Tuesday morning (highest open rates for education content) **Format:**

- 📁 **This Week in Civics** — 3 bullet summaries of civic-relevant news
- 📖 **Know Your Constitution** — one clause, explained plainly
- 🏛️ **Bill Watch** — one real bill moving through Congress this week
- 🎯 **Civix Challenge** — weekly quiz question with link to platform
- 📢 **Community Spotlight** — user or educator story

Growth target: 10K subscribers by July 4, 2026 launch; 50K by EOY

Original Data & Research (PR Fuel)

Produce one original data report per quarter:

- **Q3 2026:** "The 2026 American Civic Literacy Index" — survey 1,000 Americans on basic civics questions; compare to prior years
- **Q4 2026:** "How the Midterms Moved the Civics Needle" — platform engagement data during election cycle
- **Q1 2027:** "Teachers on Civics Education" — survey of educators on challenges and tools

These reports serve triple duty: they generate press coverage, establish authority, and give partners data they can use.

SEO Content Strategy

Target keyword clusters:

Cluster	Example Keywords	Content Format
Civics Education	"how to teach civics," "civics lesson plans high school," "AP Government resources"	Long-form guides
Current Events + Civics	"how does [current law] work," "what is the Electoral College," "how is a senator elected"	Explainer articles
Civic Engagement Tools	"civic engagement platform," "legislative tracker app," "bill tracking website"	Product pages + comparisons
American History / Constitution	"Bill of Rights explained," "how does the Supreme Court work," "constitutional amendments"	Educational content
America250	"America 250th anniversary," "semiquincentennial events," "July 4 2026"	Timely campaign content

Technical SEO priorities:

- Build a free public "Civic Explainer Library" — 200+ articles on civics topics
- Each article ends with a CTA to try the AI tutor on that specific topic
- Schema markup for quiz content (eligible for Google featured snippets)

User-Generated Content Strategy

#CivicsChallenge (ongoing): Users share their quiz scores, AI tutor conversations, and civic achievements on social. Seed with 50 early users before public launch.

"My Civic Win" campaign: Users share a moment when civic knowledge helped them in real life — understanding a ballot measure, engaging their local representative, etc.

Educator Spotlight: Monthly feature of a teacher using Civix250 in their classroom, with a quote, photo, and how-to for other educators to replicate.

[2-sentence hook about the teacher's results] + offer of teacher interview + platform access for the journalist

Op-Ed Pitch (to The Atlantic/USA Today):

"As America turns 250, only 26% of us can name all three branches of government. On July 4, 2026, that's not just embarrassing — it's dangerous. [500-word draft attached]"

Data Story Pitch (to NPR/national press):

"We surveyed 1,000 Americans on basic civics questions. The results are alarming — and they point to exactly why we built Civix250. I'd love to share the full data with you ahead of our July 4 release."

Influencer & Creator Strategy

Tier 1 — Civic/Education Creators (10K-500K followers): Target civics teachers on TikTok (@MrBettsClass, @mrsocialstudies, etc.), history YouTubers, and political science professors with public followings. Offer free institutional access in exchange for honest reviews.

Tier 2 — Youth Political Creators: Gen Z politics creators on TikTok and YouTube who explain policy in accessible terms. Offer a sponsored "use the platform for a week" video — important that it is disclosed and authentic.

Tier 3 — Education Twitter/X: Edu-Twitter is small but extremely influential among decision-makers. Build relationships with 20-30 teachers with strong followings by engaging with their content genuinely before pitching.
